U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On JULY 25, 1976
- Export shipments in
Current Marketing Year
- Daily Sales reported
JULY 26 - AUGUST 3, 1976
-- As Reported by Exporters

NOTICE TO USERS: The new marketing year for cotton, cottonseed and rice began August 1. Outstanding sales of these commodities scheduled for 1975-76 export, against which deliveries were not made by July 31, will be carried forward by reporting exporters for delivery in the 1976-77 marketing year. Special tables showing summary data for the 1975-76 marketing year will be published in the report to be released August 12, 1976.

EXPORT SALES REPORT

Comments on release of August 5, 1976 (based on reports from exporters for the week ending July 25, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1976/77 (year beginning June 1) advanced by 611,500 metric tons (MT), bringing the total commitment for the year to 11.1 million MT compared with 12.4 million MT for the comparable period a year ago. Some of the significant increase in commitments were to East Germany 101,600 MT; Japan 151,200 MT; and the European Community (EC) 73,000 MT. Total commitments to East European destinations, of which East Germany accounts for about one-half, now stand at 334,200 MT. Commitments to Japan and the EC now total 1.1 million MT and 1.0 million MT, respectively. Commitments to Japan are about equal to those at this time last year, whereas commitments to the EC are lagging almost 500,000 MT behind those of a year ago. In addition, commitments to Chile increased by 64,000 MT while commitments to Iran were higher by 61,300 MT. Sales to the Sudan totaling 50,000 MT were reported, the first registered to that country this year. These increases in commitments were somewhat offset, however, by a reduction in commitments to unknown destinations of 96,000 MT. The total of shipments and forward sales to destinations other than the USSR for the 1976/77 marketing year is now 9.4 million MT, about 1.6 million MT behind that of a year ago. This decline in foreign demand is reflected in the current USDA wheat export estimate (excluding products) of 28.3 million MT for the 1976/77 marketing year. This year's estimate is down 3.4 million MT from the 1975/76 level of 31.7 million MT.

Outstanding sales of wheat for 1977/78 shipment increased by 110,000 MT due to sales to the Dominican Republic. Outstanding sales for 1977/78 shipment now total 428,900 MT, of which sales to the USSR account for about 75 percent.

Feedgrains: The apparent export commitment for corn for 1975/76 (year ending September 30) advanced by 349,400 MT to total 42.7 million MT for this year. Corn commitments to all West European destinations accounted for about 85 percent of this week's increases. Corn commitments to the EC advanced by 173,700 MT, bringing the total for the year to 10.6 million MT. Other significant increases in corn commitments to West European destinations were 57,700 MT to Spain and 64,000 MT to Portugal. Total corn commitments to Western Europe destinations, including the EC, now stand at 14.7 million MT, compared with 15.6 million MT at the comparable period a year ago.

EC corn commitments have now increased by 2.7 million MT for both 1975/76 and 1976/77 shipment during the past six weeks, compared with 0.4 million MT for the comparable period a year ago. This surge in EC demand for both old crop and new crop reflects the deterioration of corn prospects and feed supplies due to recent prolonged drought conditions in the EC.

Outstanding sales of corn for 1976/77 shipment (year beginning October 1) increased by 568,200 MT. Some of the larger increases in corn commitments

were to the EC, 253,500 MT; East Europe, 615,000 MT; and Japan, 104,700 MT. These increases were partially offset by a decline in commitments to unknown destinations of 498,600 MT. Total corn commitments for 1976/77 shipment now total 9.3 million MT, about 4.2 ahead of the comparable period a year ago. This surge in forward sales of corn has contributed to the upward revision in the USDA corn export estimate (excluding products) from 36.6 million MT to 37.8 million MT.

Total sorghum commitments for 1975/76 remained relatively unchanged at 5.2 million MT. Sorghum commitments to Portugal increased by 47,900 MT, but were largely offset by reductions in commitments to unknown destinations, Venezuela, and Japan. The continuing slow pace of sorghum exports has caused a reduction in the 1975/76 export estimate to 5.7 million MT, down 635,000 MT from the earlier estimate.

Barley commitments for 1976/77 (year beginning June 1) advanced by 63,900 MT, largely on the basis of increased commitments to unknown destinations.

Soybeans: The apparent export commitment for 1975/76 increased 83,800 MT, primarily reflecting larger commitments to Japan. Outstanding sales for 1976/77 increased 114,700 MT, primarily to Japan, Israel, and unknown destinations. Exports during the week totaled 214,300 MT, including 89,800 MT to Japan and 88,100 MT to the Netherlands. Cumulative exports have now reached 14.9 million MT compared with 11.0 million MT this time last season.

One factor behind the increase in U.S. exports of beans and meal in 1975/76 is an increase in mixed feed production in West Germany. During October 1975-May 1976 output was up 14 percent. Relatively small farm feed supplies, favorable prices, and a moderate expansion in livestock numbers resulted in surprisingly sharp expansion of mixed feed use for cattle and hogs. In view of the poor feed crop, total mixed feed use for the whole marketing year is estimated at 12.7 million MT, an increase of 15 percent.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased 99,800 MT, primarily reflecting larger commitments to Romania, the Netherlands, Yugoslavia, and France. Commitments to unknown destinations declined 10,100 MT. Exports during the week totaled 104,300 MT, primarily to Romania (31,300 MT), Iran (17,600 MT), France (17,400 MT), the Netherlands (14,400 MT), and Yugoslavia (11,500 MT).

Cotton: The net export commitment increased 223,000 running bales (RB), 192,000 RB for delivery in 1976/77 and 31,000 RB for delivery during the current season. Japan, the Republic of China (Taiwan), Canada, Belgium, and India were the largest buyers. Unlike several foreign suppliers, U.S. suppliers continued to sell forward in quantity.

With one week left in the current marketing season, exports were almost 3.2 million RB against a total export commitment for 1975/76 of 3.8 million RB. Most of the difference will be shipped after August 1, 1976, along with the 2.1 million RB commitment for 1976/77 delivery.
